

Dear Builders,

Over the past few days, we have carefully reviewed the concerns raised regarding the Honeypot problem at the India AI Impact Buildathon finale.

Many of you travelled long distances and invested significant time, effort, and trust in this platform. We value that commitment deeply.

As committed, we conducted a structured review covering:

- Evaluation logs
- Scenario execution records
- Scoring consistency validation
- Jury workflow review

Please find attached the **Evaluation Review Summary**, outlining the evaluation architecture, execution confirmation, and key findings in a clear and structured manner:

Additional Honeypot Recognition Round

To ensure stronger representation and recognition for Honeypot participants, we are introducing an exclusive additional round:

24-Hour Online Honeypot Challenge

- Open to Honeypot finalists
- Same evaluation rubric
- Transparent scoring structure
- Real-time leaderboard visibility
- Top 3 teams advance to a live **Online Shark Tank-style pitch round**
- 4-member Jury Panel

Additional Prize Pool: ₹1,00,000

- ₹50,000 - 1st Place
- ₹30,000 - 2nd Place
- ₹20,000 - 3rd Place

The winners of this round will receive the **same India AI Impact Buildathon Winner Certificates**, ensuring equal recognition and parity with the finale winners.

Online Hackathon is scheduled to take place from **20th February, 10:00 AM to 21st February, 10:00 AM** (24 hours). Followed by the Jury Session for the top 3 teams, details for which will be shared shortly.

Our goal has always extended beyond prize money, it is about building a credible and long-term AI builder ecosystem in India.

If there were moments where the process felt unclear and frustrating, we acknowledge that and remain committed to continuous improvement.

Thank you for your passion, professionalism, and engagement.

Warm regards,

Team India AI Impact Buildathon
